Curtis Components Required

A/C unit (1ACX1140)-fits X Crew & X1140

A/C unit (1ACX1130)-fits X1130

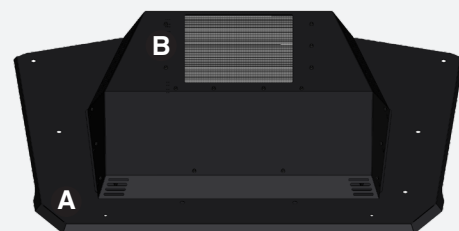

Overhead Console

- ❶ 10 multi-directional adjustable vents
- ❷ 3-speed blower control
- ❸ Adjustable electronic thermostat
- ❹ 3 Easily replaceable air filters
- ❺ Blend door provides fresh air, recirculated air, or a mix

- ❶ Two double squirrel cage blowers move an impressive 610 CFM volume of air.
- ❷ 36 pass 24,000 BTU evaporator core with a 2 ton valve produces enough ice cold air for both 1 and 2 row configurations.
- ❸ 10 adjustable vents fully distribute air throughout the cabin to keep operator and passengers comfortable.
- ❹ A highly efficient and reliable 77cc scroll compressor provides plenty of refrigerant flow even at engine idle.

Exterior Unit

- ❶ Cover removes easily for access to internal components such as fuses and relays
- ❷ Ample air inlet grille area provides plenty of fresh air to condenser fan
